

United Surgical Partners  
INTERNATIONAL

---

Quality Driven, Trusted Partner, Innovative Leader

## **Stronger as Partners**

At United Surgical Partners International, we create relationships that create better care. We partner with physicians and health care systems to provide first class surgical services throughout the United States.

## **Our Mission**

USPI's Mission is a simple one, but the gravity of it is profound:

We must treat each and every one of our patients, and their families, as if they were our own family member. Each patient, each family, each and every time.

## Who We Are:

### Outpatient Services

USPI is an ambulatory services provider consisting of over **268** short stay surgical facilities and **20** imaging centers that we currently operate in **29** states.

### Health Partners

We are in partnership with **50** not-for-profit health systems and over **4,000** physicians.

### Physicians

The **12,000+** physicians who are on our medical staffs perform over a million surgeries each year at our facilities.

### Our USPI Team

The USPI team includes over **11,000** dedicated and capable employees.

### Partnerships

United Surgical Partners International (USPI) is a joint venture. USPI and Tenet have combined forces to create the nation's largest ambulatory surgery provider. Our partners deliver high quality surgical and imaging services in safe, caring USPI facilities in communities of every size across the nation. And they achieve superior outcomes. Our physician partners are invested in the quality of patient care, in part because they are invested in their USPI facility. We provide the infrastructure and support they need to perform their best. This is the advantage of partnering with USPI.

### Clinical Quality

USPI's focus on patient centeredness, patient communication, our EDGE quality system and extensive clinical resources is vital to the collective success of USPI facilities and our physicians, while maintaining USPI's leadership in the ambulatory services industry.

## Working at USPI:

### Diversity

USPI is committed to, and proud of our inclusive culture. An inclusive culture, in our view, is respectful of differences and nurtures and supports the contributions of each individual, while also embracing and leveraging diversity. A diverse workforce, combined with an inclusive culture, makes USPI stronger and better able to meet the needs of our diverse patient and physician population.

### Professional Development

USPI offers employees opportunities for continuing education, career development and coaching. We also offer nursing scholarships, as well as a role-based training curriculum.

### Benefits

United Surgical Partners International provides a comprehensive benefits package and continues to evaluate and balance the rising cost of health care, while providing our employees with a variety of benefit options.

## USPI Affiliates:

In addition to pioneering and operating some of the nation's most successful surgical facilities, we maintain strategic affiliations.
